SHOULDER AND DRAINAGE WORK ON NH ROUTE 101 IN DUBLIN
ONE-WAY ALTERNATING TRAFFIC REQUIRED DURING WORK HOURS

The New Hampshire Department of Transportation announces shoulder and drainage work on NH 101 in the Town of Dublin. The project is approximately one mile in length and will begin the week of May 17, 2004.

This project includes construction of catch basins and cross culverts to improve water quality near Dublin Lake.

One-way alternating traffic will be necessary during daytime work hours in order to perform the work. Flaggers will assist motorists through the work zone. Some delays can be expected.

The estimated completion date is September 15, 2004.
